Summary

This report outlines OpenAI's rapid financial growth, noting an annualized revenue run-rate exceeding \$25 billion by February 2026. It highlights significant capital raises, including a \$40 billion round led by SoftBank, while emphasizing the high infrastructure costs and reinvestment needs associated with frontier AI development.

Action items

Monitor OpenAI's infrastructure spending and reinvestment requirements, Track enterprise adoption trends and inference cost improvements, Evaluate the impact of regulatory uncertainty on future scaling, Verify private-market valuation levels against reported revenue growth
