Summary

This report provides a financial snapshot of OpenAI as of May 2026, highlighting its rapid revenue growth from \$2B in 2023 to over \$25B by early 2026. It details significant capital raises, including a \$40B round led by SoftBank, and analyzes the company's compute-to-revenue flywheel model.

Action items

Monitor OpenAI's transition from private to potentially public financial disclosures, Assess the sustainability of the compute-to-revenue flywheel, Track regulatory developments affecting AI scaling and infrastructure
